Your Summer Home

—whether it be nestled within the cooling green of the shaded woodland, along the shore, caressed by the water's gentle breeze, or gracing the balmy countryside, ocean-wide in colorful beauty—there it is you will find an abode of happiness, rest and comfort.

Why spend the long, hot days and sultry, sleepless nights in the tiring city, when less than an hour's motoring brings you into the cool, sweet-smelling air? How refreshed you will be, and keen, eager for business. The children's vacation will be made ideal, and their Mother—enjoy it? She, more than all others.

A SUMMER home to be comfortable and substantially built, need not be costly—in fact, the exceedingly nominal cost is most surprising. The designs presented offer a selection from the most complete summer lodge, to the tiny woodland shack.

SHOULD you desire a summer home different to those illustrated, it will be our pleasure to have the plans prepared for you. The blueprints will include all necessary details of construction. All plans are promptly furnished.
